Diving Grand Cayman for over 25 Years!

# PADI ADVANCED OPEN WATER COURSE

The Advanced Open Water course is a great way to build on what you have already learned in your Open Water course. You will develop new capabilities and be introduced to new diving activities whilst increasing your confidence in the water. And no, you don't have to be an advanced diver to take the Advanced Open Water diver course – it's designed so you can go straight into it after completing the PADI Open Water Diver course! This is a great way to gain more diving experience while continuing to learn under the supervision of a PADI Instructor.

You will complete the theory section of the Advanced Open Water course online, prior to arriving in Grand Cayman.

Once you arrive in Grand Cayman you will then start your in-water training! We will conduct 5 Adventure dives which will introduce you to different, exciting areas of diving, including Deep, Navigation & Peak Performance Buoyancy. You will still have two more adventure dives to complete, and can choose from Night, Wreck, Fish Identification, Search & Recovery, Enriched Air Nitrox, Naturalist, Boat and

Multilevel & Computer.

The course runs over a day and a half, where you will complete 3 dives on the first day and 2 on the second morning.

Upon completion of the course you will be a certified Advanced Open Water diver and each Adventure Dive in the PADI Advanced Open Water Diver course may credit toward the first dive of the corresponding PADI Specialty Diver course.

We look forward to continuing your dive education, here in Grand Cayman.

**The Red Sail Dive Team**
