Diving Grand Cayman for over 25 Years!

PADI SCUBA TUNE UP COURSE

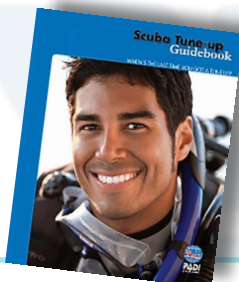

Not been diving in a while? No worries! Red Sail Sports can ease you back into the world of scuba diving with the PADI Scuba Tune-Up Course - an intensive one day program covering everything including theory and skills. We will review the scuba knowledge you learned during your initial training and then practice fundamental skills in the pool. After you complete the knowledge assessment in our air-conditioned

classroom, we'll gear up and head for the pool to complete the confined water skills session. You'll review information about each skill, why it's important and points to remember when performing the skill. To finish the day we'll hop aboard the afternoon dive boat and head out for a shallow 1-tank dive to test out your newly refreshed skills and ease you back into the wonderful world of scuba diving!

You can also complete the theory section of your SCUBA tune-up on-line with PADI eLearning - getting you into the water faster! Just click here to start your theory (US \$62 eLearning fee payable direct to PADI) and get back into diving today!

Please Note: The PADI SCUBA Tune-Up is required for people who have not been diving in 6 years or more. If you have not dived for over 10 years please contact us for to discuss further training.

The Red Sail Dive Team

What's involved

- Theory session where you'll cover: Safe diving practices, dive planning fundamentals, problem management, breathing air at depth, recreational diving, dive computers & dive tables: basic knowledge & dive planning
